Dear Group Two Families,

Welcome to Summer Quest! Each week we have a theme to keep your child engaged, and entertained! The week will feature three great field trips, and two days of activities, art projects, group games, and self-directed reading! Your child will also be asked to complete a simple journal entry to help them remember and reflect on all of our fun activities!

This week is Aquatic Life in the Northwest! We will be looking at the anatomy of fish, making Japanese fish prints, and visiting three beaches for tide pooling, play games and do art! We will also explore how indigenous people depended on aquatic life and how those animals fit into their cultural landscape! Annie Crawley ocean photographer and explorer will also join us for a presentation. Check her out at www.anniecrawley.com.

The staff for group two this year is John Buchinger, Hollis Helton, and Jessica Shatkin. John is a former teacher, museum educator and this is his second year leading a group for Summer Quest. Hollis a great maker and artist and is back for a second year. She loves having fun right along with the campers! Jessica is a recent graduate of Whitman College in Mathematics. She is an energetic and compassionate leader who loves working at camp.

Please be sure to be on time, and it is best to arrive with sunscreen already applied. We can provide other applications throughout the day. Kids are also encouraged to bring a book to read but please leave all toys at home. Summer Quest encourages healthy snacks and we ask that candy be kept at home.

WEATHER ALERT: TEMPERATURES WILL BE HIGH THIS WEEK. KIDS SHOULD HAVE PLENTY OF WATER IN THEIR WATER BOTTLES EVERYDAY. HATS ARE A GOOD IDEA AND BE SURE THEY ARE DRESSED FOR HEAT AND WATER EVERYDAY!

This week you will need:

Good walking shoes

Water shoes

A back pack

Swim Suit / Towel

Water Bottle

Lunch

Any questions about the week please email John at buchingerj@gmail.com. or feel free to ask us at the end or the beginning of the morning..

Thanks!

John. Hollis and Jessica
