

Hello Meridian Families,

Extended Day is so excited to welcome you all back for the 2021–2022 school year! Just like many things this school year, Extended Day has made some changes.

Tuition Assistance Applied to Enrichment Classes

This year, a unique tuition assistance discount code has been created. As you may know, families that receive tuition assistance (TA) are entitled to apply the percentage amount of their TA to three enrichment classes per year. The same percentage that your family is awarded for TA is also applied to the cost of the enrichment class.

Each family has a unique TA discount code for each student. The code is the last name and first name of each student: for example, SmithJohn. For students with hyphenated last names, please use both last names, for example, UrdazWhiteJessica. Each student in a family has their own code.

The enrichment discount code is set up to be used for one class per student per season (fall, winter, spring). It is possible to use the code for multiple classes per student in one season, but you will need to contact [Jessica Urdaz-White](#) to do so.

You can also use the discount code for one class per student per season while enrolling in other enrichment classes that season at full price. To do this, first decide which class you wish to apply the discount to. You will need to perform two separate enrollment transactions: the first to enroll in the class you want to apply the discount code to, and the second to enroll in other classes at the full price.

TA discount codes are not to be shared with other families, as they are unique to your family.

To Apply the TA Discount Code

Log on to [CampBrain](#), then select your student(s) and the class to be discounted for each student. In the “Your Cart” box on the right of the session selection page, below each student’s name you will see green text that says “Enter a discount code for ____.” Please click this green line and then enter the discount code for that particular student.

From this point on, follow the steps on the website to complete the registration. The discounted class fee must be paid in full for your student(s) to be enrolled in the chosen classes.

If you want to enroll your student(s) in additional enrichment classes without the TA discount, please complete a second transaction for the full-price classes.

Please contact [Jessica Urdaz-White](#) if you have any questions
